

**Maximum Cooling Performance**

**Heavy Duty Flex Fans**

Derale Heavy Duty Flex Fans provide maximum airflow at low RPMs when the vehicle speed provides little or no airflow through the radiator. At higher RPMs, the vehicle speed provides ample airflow and the fan blades flatten out to minimize engine loading, increasing horsepower and mileage. Fan spacer and nose cone kits sold separately.

**High Performance Flex Fans**

High Performance Flex Fans feature a narrow blade design for good airflow in tight space applications. Embossed center hubs and four-riber blade attachment provide increased strength.

**Fan Spacers & Nose Cone Kits**

Derale's extruded aluminum fan spacers are available in a variety of sizes and come with a clear, red or blue anodized finish. Mounting hardware included. Nose Cone Kits hide the exposed bolts and pilot hub at the center of the flex fan. The kit contains an extruded aluminum fan spacer with a threaded male pilot hole and a billet aluminum Nose Cone. The spacer and fan are bolted to the water pump flange and the nose cone threads onto the fan spacer. Nose Cone Kits come in blue or red anodized or chrome finish. Mounting hardware included. For standard rotation fans ONLY.

**Clutch & Race Fans**

**Fan Clutch Fans**

Derale's fan clutch fans are designed to replace the factory fan. The 8-hole center hub will fit most OE fan clutches.

Part #	Diam.	Rotation	Cost
17117.....	17"	Standard.....	\$59.95
17118.....	18"	Standard.....	\$59.95
17119.....	19"	Standard.....	\$59.95

17919.....	19"	Reverse.....	\$59.95
17920.....	20"	Reverse.....	\$59.95

**Rigid Race Fans**

Derale's rigid all metal fans provide more airflow than factory fans at all RPMs. They meet most racing regulations requiring metal belt-driven fans.

They are available with steel fan blades in standard or reverse rotation and aluminum fan blades in standard rotation. Fan spacer kits sold separately.

**Aluminum Blades**

Part #	Diam.	Rotation	Cost
