When it comes to coilovers, there's no comparison to Aldan®Eagle quality! Not when the Eagle line features 6061 T-6 aluminum, large pistons on rugged 9/16-in. rods, nitrogen-charged, anti-leak system, and a top-mounted multi-adjustment knob. These fully-rebuildable shocks carry a Limited Lifetime Warranty (in street use) and there are models and lengths to suit any application. Aldan®Eagles are 100% US-made, require no press to assemble, and interchange between bushings and bearings!
